

Helping Moreland businesses get ahead by saving with solar power

Businesses across Moreland are putting solar on their roof to help cut rising electricity costs and improve profitability, while doing their bit for the environment. The Positive Charge team supports businesses to find and choose tailored solar power solutions in four key steps.

positive charge

1

Request quotes from Positive Charge's panel of carefully vetted suppliers.

2

Receive solar quotes showing financial savings for your business.

3

The Positive Charge team helps you understand the quotes and financing options.

4

You choose the deal that's right for you.

By partnering with Positive Charge you can:

- » See how easy, safe and cost effective it is to transition your business to solar power and start saving now
- » Make informed decisions about the right solar power and financing solution that will help your business get ahead
- » Get the right advice and deal with indepentetly vetted, accredited solar power installers
- » Access a range of initiatives to help make your business more energy efficient.

Conga Foods, Food manufacturing

The Positive Charge team helped Conga Foods install a 458kW solar system. This is expected to reduce their grid energy consumption by over 40%, which will save the company over 700 tonnes of greenhouse gas emissions and thousands of dollars in operating costs each year.

Otto and Spike, Manufacturing

The Positive Charge team helped Otto and Spike install a 30kW solar system, which is expected to pay for itself in under four years. The installation was funded through a loan via Moreland City Council, enabling Otto and Spike to start saving from day one.

Five reasons to go solar now:

- » Immediately reduce costs and increase profitability
- » High-return investment
- » Future-proof your business against energy costs
- » Take the opportunity to make the most of government rebates and financing options
- » Improve your environmental impact
